- Senior Center Volunteer & Nutrition Coordinator
- Public Works Janitor

9. City Manager's Report, May 2, 2022

B. Status/Update Reports

4. Upcoming Agenda Item: Award of Contract for Wastewater Plant Sludge Press and Related Financing

We currently dewater treated sludge with a 28-year-old belt press which has seen its better days and is fast approaching its last. After running pilot tests and accepting bids, the City determined that the most cost-effective means of dewatering sludge (to lower disposal costs) was by means of a screw press. When the existing belt press fails, we would need to resort to hauling liquid sludge, probably to the Green Bay MSD.

We have arranged for CWF financing, including Principal Forgiveness. What remains is to award the contract, and then determine the type of loan guarantee (General Obligation of Revenue) The first will impact GO borrowing capacity and. The latter will require that Sewer Utility revenues be increased. This matter will be addressed at the next Utilities Committee meeting.

Agenda item for May 16.

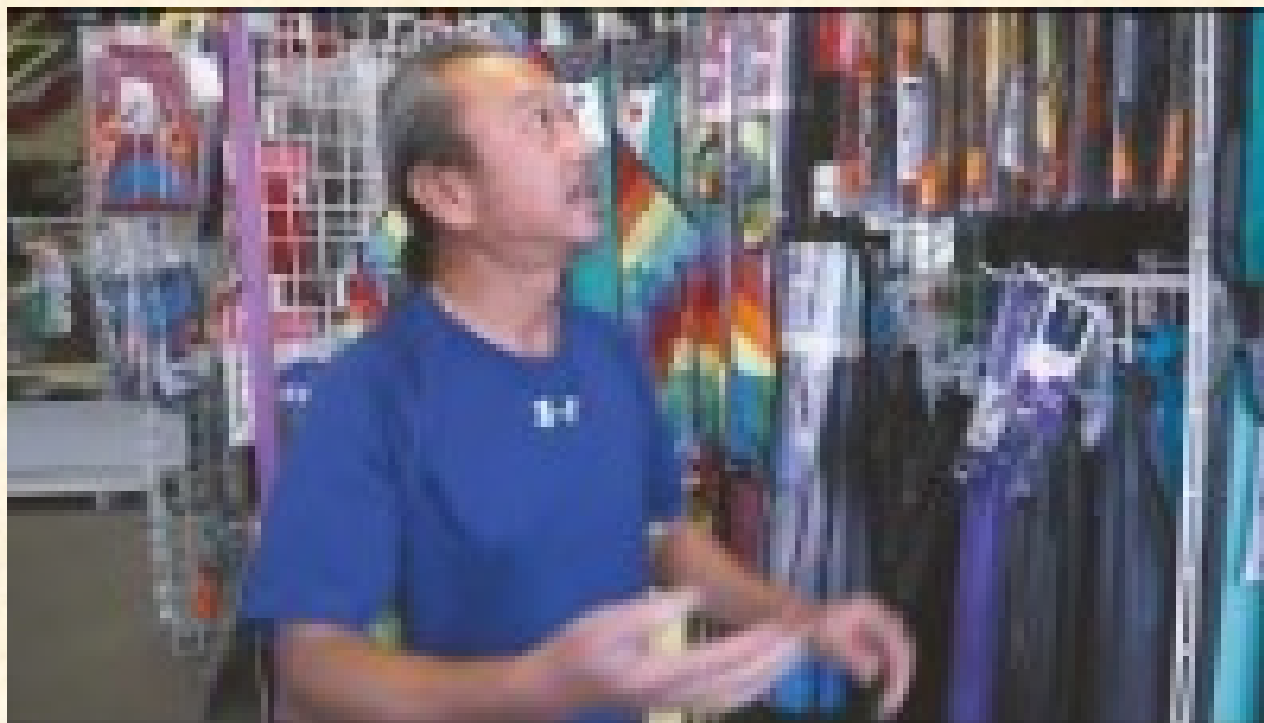

City Council Meeting – May 2, 2022

B. Status/Update Reports

5. City Tourism Development and Promotion Activities

Happy Tourism Week May 1-7!!!

City Council Meeting – May 2, 2022

9. City Manager's Report, May 2, 2022

B. Status/Update Reports

6. Status of Equipment Problems Related to Broadcasting Meetings on Spectrum Cable

- * Unsuccessful in locating an "older" replacement fiber transmitter to hold us over until the transport can be updated. However, we are still looking.
- * We are currently working with Spectrum to get an estimate for the transport update.
- * Even when/if we move forward with the update, it will likely be months before it is ready.
- * Online streaming is not affected at all by this issue and remains the current option for viewing.

NEW HOME CONSTRUCTION AT SANDY BAY HIGHLANDS

There are currently two new homes under construction at the City-developed Sandy Bay Highlands conservation subdivision. The new home shown below is a "spec" home by a local developer, which will soon be on the market.

City Council Meeting – May 2, 2022

9. City Manager's Report, May 2, 2022

C. Legislative/Intergovernmental Update

1. Potential South Beach Restoration Project—Future Funding Application

Project first proposed in 2013 Harbor Master Plan (excerpt at right).

City is evaluating funding options in consultation with a group from the Great Lakes and St. Lawrence Cities Initiative and the Fund for Lake Michigan.

LAKE MICHIGAN BEACH RESTORATION

In addition to the surge mitigation solutions and potential scenarios for marina development, the City wishes to maximize their legal domain granted them along the Lake Michigan shoreline located between the Lighthouse Inn and the existing harbor entrance south jetty. An agreement between the City of Two Rivers and the Wisconsin DNR gives the City the right to place fill on the lakebed to a defined bulkhead line provided the use of the fill is for public recreational and/or marina related purposes. A suggested solution to stabilize that reach of shoreline and enhance both ecological value and recreational user benefit is shown in Figure 19. This solution is similar to the shoreline restoration work recently completed for Concordia University in Mequon, Wisconsin (Figure 19), integrating a naturalized shoreline and beach with robust erosion resistance. Secondly it can be designed to retain drifting sand that may otherwise be lost off-shore and eventually deposited into the harbor entrance (requiring maintenance dredging).

Figure 19a: Design of a more naturalized shoreline and beach area.

Figure 19b: Implementation of the Concordia University natural shoreline

City Council Meeting – May 2, 2022

9. City Manager's Report, May 2, 2022

C. Legislative/Intergovernmental Update

2. Update on Next Round of Applications to WisDOT for Street Improvements (Federal Bipartisan Infrastructure Bill Funding)
